# PURSUING PERFORMANCE EXCELLENCE

Text by Mellissa Ang, Assistant Manager, Membership Services | Photos by INFINITI

Singapore recently celebrated the successful completion of ten glorious Formula One (F1) night races, with the latest edition held between 14 and 16 September 2018 against our spectacular city skyline that had once again taken international audiences' breath away (following the success of the film *Crazy Rich Asians* just a month before). Just a few nights after, on 19 September, medical and legal professionals gathered at the INFINITI Gallery for a celebration of their own kind at the Annual Lawyer-Doctor Networking Event 2018, despite having to overcome heavy rain en route to the event venue. Held over a scrumptious buffet dinner, this yearly affair celebrates the strong friendship between members of both professions. This year, dinner was accompanied by alcohol courtesy of AsherBWS, the oldest alcohol distributor in Singapore, which has been operating since 1961.

③

As the official technical partner of Renault Sport Formula One™ Team, INFINITI treated the more than 60 members and guests from SMA and the Law Society of Singapore to a showcase of the F1 prototype racing car in all its glory, along with a rare close-up photo opportunity. Though the F1 prototype racing car could not be experienced personally, INFINITI did not disappoint

with their range of cars made available for test drives; guests even got to try their hands at two beauties – the Q50 Red Sport 400 and Q60 Red Sport 400 – which they could take for a spin.

We hope that all our guests enjoyed an unwinding evening with new and renewed bonds formed within and between the professions. ♦
