Data Ethics in the Era of Digital Health

1 July 2023, Saturday

2 pm to 3 pm

Webinar via Zoom

CME points: 1 (pending SMC's approval)

Speaker: Dr Aung Myint Oo,
Deputy Chief Medical Informatics Officer,
Senior Consultant, Tan Tock Seng Hospital

SMA
CMEP

Centre for
Medical Ethics &
Professionalism

Healthcare systems have been undergoing digital transformations both globally and locally. Digital transformations in healthcare not only enable the delivery of better patient experience and care, but also result in improved health outcomes. The result of the digitalisation of healthcare is the generation of a vast and growing amount of readily available patients' clinical and health data. The use of these clinical and health data must be ethical and legal. In this symposium, we will discuss these data ethics in the era of digital health.
