

Advancing Obesity Care: Latest Trends and Tailored Treatment Strategies

Friday, 30 August 2024; 13:00–14:00 (SGT)

Dear Doctor,

Join us for our upcoming webinar, "**Advancing Obesity Care: Latest Trends and Tailored Treatment Strategies**" on 30 August 2024.

[REGISTER NOW](#)

Obesity remains a significant global health challenge, linked to numerous chronic conditions and decreased quality of life. A comprehensive approach to obesity management is crucial to address these issues effectively and improve patient outcomes. In this webinar, our esteemed speaker, Dr Kevin Tan, will review the latest trends and guidelines in obesity management, including the role of multidisciplinary teams and digital health technologies, and discuss how pharmacological treatments like liraglutide can support long-term, personalised strategies.

EXPERT FACULTY

Dr Kevin Tan

Consultant in Diabetes, Endocrinology and Internal Medicine
Kevin Tan Clinic for Diabetes, Thyroid & Hormones@Connexion
