

Supporting Medical Education, Inspiring Medical Research, Impacting Public Health!

"The SMA Medical Student's Assistance Fund has helped lessen the financial burden on my parents, and now I can enjoy my medical school life."

Shaina Neo Hui Min, M3 student, NUS YLLSom

"Thank you for investing in the future of medical students, and for supporting me through the difficult times."

Roland Xu Weixiang, M4 student, NUS YLLSom

"Allowing all things to be equal is what this bursary has done for me. Words cannot express my gratitude... it gives me much hope knowing I'm in a community that gives back."

Divya Ang Shu Yan, M4 student, NUS YLLSom

The greatest use of life is to spend it for something that will outlast it.

Equal Opportunities for Everyone

SMA Charity Fund2 College Road Level 2
Alumni Medical Centre
Singapore 169850

We believe in equal opportunities when pursuing one's passion and dreams. The journey to be a doctor should not be halted or disadvantaged because of financial difficulties for medical students from needy families.

Since 2007, SMA Medical Students Assistance Fund, a program under the SMA Charity Fund(SMACF), has been supporting living expenses of medical students in need, allowing them to focus on what's important – being a good doctor. Apart from financial assistance bursaries, SMACF also promotes learning exposure for needy medical students, provides support for health and public health-related education, and promotes volunteerism in the medical community.

Be The Change-Makers and Create Impact to Healthcare in Singapore!

SMACF is in this for the future of the medical profession. Your donations will enable SMACF to carry out its work and create lasting impact to healthcare and the medical profession. All donations will be used to further the works of SMACF and will enjoy 2.5 times tax deduction benefits.

About SMACF

SMACF was established in 2013 by the Singapore Medical Association to address the rising cost of living and medical education, and to fill the gaps of needs faced by needy medical students in the face of changing healthcare landscape, for the benefit of both doctors and patients in Singapore. Read more about SMACF in www.sma.org/smacf.
