Dear A/Prof Lim,

Criteria of Reservist Leave for Residents

Thank you for your reply to our previous queries about the criteria of reservist leave for residents, as well as the assurance that your institution's programme directors has been following the MOH Training Circular 10/2010 closely for the leave approval process.

On behalf of the SMA Doctors in Training Committee, we wrote to the Ministry of Defence's Advisory Council on Community Relations in Defence (ACCORD) about the residents' concerns that they would be made to do a repeat posting or extended posting if the total number of days of absence from training exceed the stipulated days as per the MOH Training Circular 10/2010. We have enclosed MINDEF's reply to our letter, for your reference. MINDEF has expressed interest in engaging the residents over this matter through their reply, but the exact details have not been firmed up yet.

We hope that a common guidelines for programme directors across all 3 sponsoring institutions would help them to manage leave applications and as a result, maintain the balance between fulfilling the rigorous training requirements and prevent residents' burnout.

Thank you.

Yours sincerely,
