Founded in 1997; our group was formed with the aim of developing an integrated network of healthcare practices to deliver quality healthcare to the community, in a cost-effective manner.

Today, we command a wide network of medical, dental as well as diagnostic centres across the Asia-Pacific region supported by some 1600 medical doctors, dentists, radiologists and supporting personnel, backed by more than 250 medical clinics, dental clinics (including a dental laboratory), and medical imaging centres in the region.
