

Japan Green Clinic has 35 years of history in Singapore providing general medical services in Japanese and English, to meet the medical needs of both Japanese expatriates and residents of other nationalities.

Supported by its medical facility, including X-ray and clinical laboratories and in coordination with specialists and medical centres in the vicinity, Japan Green Clinic offers general and comprehensive health screenings.

Japan Green Clinic is currently recruiting a
GASTROENTEROLOGIST
who is willing to take a leading role in this specialty.

Responsibilities

- Consultation, examination and treatment in the doctor's own specialty on a full-time basis
- Supervision of doctors with conditional registration

Requirements

- Accredited by the Specialists Accreditation Board
- Full registration with the Singapore Medical Council as a specialist for at least five years
- Actively involved in gastroscopy and colonoscopy for the past five years
- Good communication and interpersonal skills

Benefits

- Employee medical benefits
- Language-learning subsidy
